

MOBILE MULTI-SKILLED ENGINEER - PART-TIME

GLASGOW AREA

Who We Are and What We Do:

Pulse Management is a family business based in Surrey providing fit-out and maintenance service to commercial and retail properties, working with some of the UK's top high street brands.

What We Are Looking For:

A Multi Skilled Fabric Engineer to join our team - as a sub-contractor - for 1-2 days per month.

Job Role:

Working as a multi-skilled engineer you will ensure that all maintenance activities are carried out to the highest standards. A keen eye for detail is essential as our clients rely on our expertise to maintain the look and feel of their properties. You will be required to undertake planned and reactive maintenance tasks, paying particular attention to Health & Safety. You will be maintaining and servicing retail outlets, ensuring they are in good working condition and the client's brand is upheld. You may also work on small refurbishments or shop fitting projects.

Skills Required: •

Carpentry • Joinery • Basic Plumbing • Basic Electrical Works • Painting / Decorating • Tape & Jointing / Dry Lining. The ideal candidate will have a core trade in carpentry but be competent in other areas.

Key Accountabilities:

To be able to work at a fast pace, recognise key priorities quickly, and take pride in consistently providing a great service.

To ensure that maintenance works are completed with precision and care, within an agreed timescale and that Health & Safety measures are in place.

To establish and maintain a productive working relationship with the maintenance team to ensure work is completed in an efficient and effective manner.

To communicate well with the client and / or store managers

To report to the Contracts Manager about completed tasks and identify new issues for each store.

Please apply to jobs@pulsemgt.com or call the office on 0844 804 0428.

We look forward to hearing from you.
